

PLANIT GREEN

EARTH FRIENDLY MATERIALS

SHEET SIZES

48" x 96"
60" x 120"

MATERIAL

Fluted boards

THICKNESS

1/8"
1/4"

COROPLAST RIGID

100% recyclable where facility exist. Corrugated plastic boards are excellent for direct print and also work well for screen and digital print. Corrugated plastic is more durable than corrugated fiberboard and is waterproof as well as chemical and stain resistant. At end of life, Coroplast can be reused as layer pads, slip sheets, and corrugated plastic containers.

Health applications; whether you are working in a crowded office or sitting in the cafeteria at lunch, Coroplast can also be used as a partition. It assembles easily and quickly, and is durable, storage-friendly, and easily cleaned.
